

Special Issue

Scientific Update on Nanomaterials in Dentistry

Message from the Guest Editor

In this Special Issue, we focus on nanomaterials for dental applications including materials design, synthesis, and characterizations. Additionally, we are interested in biological behaviors according to properties of materials, such as antibacterial, mineralization, hypersensitivity, and cell differentiation. We expect submissions from various researchers working on the nanomaterials science and engineering, biomaterials, bioengineering, and dentistry fields in this Special Issue.

Guest Editor

Prof. Dr. Seog-Young Yoon

Structural and Functional Materials Laboratory, School of Materials Science and Engineering, Pusan National University, Busan, Korea

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Nanoscience and nanotechnology are exciting fields of research and development, with wide applications to electronic, optical, and magnetic devices, biology, medicine, energy, and defense. At the heart of these fields are the synthesis, characterization, modeling, and applications of new materials with lower nanometer-scale dimensions, which we call “nanomaterials”. These materials can exhibit unusual mesoscopic properties and include nanoparticles, coatings and thin films, metal–organic frameworks, membranes, nano–alloys, quantum dots, self-assemblies, 2D materials such as graphene, and nanotubes. Our journal, *Nanomaterials*, has the goal of publishing the highest quality papers on all aspects of nanomaterial science to an interdisciplinary scientific audience. All of our articles are published with rigorous refereeing and open access.

Editor-in-Chief

Prof. Dr. Shirley Chiang
Department of Physics, University of California Davis, One Shields
Avenue, Davis, CA 95616-5270, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1
(General Chemical Engineering)
