# Message from the Editor-in-Chief

*Neurology International* (ISSN 2035-8377) is an international, peer-reviewed, open access journal that provides an advanced forum for studies related to all aspects of neurology and neuroscience. It publishes reviews, regular research papers, short communications, case reports, and interesting images. There is no restriction on the maximum length of the papers. Our aim is to encourage scientists to publish their experimental and theoretical research in as much detail as possible. Full experimental and/or methodological details must be provided for research articles.
