Gut Microbiota in Kidney Disease: Potential Mechanisms and Therapeutic Strategies

Message from the Guest Editors

Chronic kidney disease (CKD) is expected to become one of the leading causes of death worldwide due to a lack of access to appropriate methods for diagnosing and treating kidney disease. As a chronic disease, it inevitably leads to a deterioration in the patient's quality of life and malnutrition. Intestinal microflora has been associated with the development of obesity, metabolic syndrome, and the onset of type 2 diabetes. Untreated diabetes may lead to impaired kidney function. A promising approach to diabetes-related diseases focuses on modulating the intestinal microflora using prebiotics, probiotics, synbiotics, and transplantation of fecal microorganisms. Therefore, in this Special Issue, we focus on the role of intestinal microflora in chronic kidney disease. Our spectrum of interests also includes other kidney diseases.

Guest Editors

Dr. Karolina Kędzierska-Kapuza

Department of Gastroenterological Surgery and Transplantology,
Centre of Postgraduate Medical Education, Marymoncka St. 99/103, 01-813 Warsaw, Poland

Prof. Dr. Małgorzata Szczuko

Department of Human Nutrition and Metabolomics, Pomeranian
Medical University in Szczecin, 71-460 Szczecin, Poland

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)
