

## Special Issue

# Active Substances of Mushroom and Their Efficacy on Risk Factors for Neurodegenerative Diseases

### Message from the Guest Editor

The goal of this Research Topic is to identify compounds purified from mushrooms, explore their pharmacological properties in neurodegenerative disease, and clarify their mechanisms of action and targets. Submitted manuscripts should fit the scope of the topic and adhere to the following requirements:

- The active compounds in question must be purified from mushrooms and subjected to explicit structural analysis. These compounds include (but are not limited to) polysaccharides, alkaloids, flavonoids, and various monomers.
- The purified and structurally appraised mushroom compounds must demonstrate their pharmacological effects in neurodegenerative disease, including (but not limited to) Alzheimer's disease, Parkinson's disease, and multiple sclerosis. Data obtained from in vitro experiments must be confirmed in animal models, or preferably in clinical trials.
- The study must clarify the mechanisms of action of the active compounds and clearly delineate their targets, such as cells and cytokines associated with anti-neurodegeneration.

---

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)
