Special Issue

Role of Vitamin D in Chronic Diseases

Message from the Guest Editor

Chronic diseases such as respiratory disease, cardiovascular disease, cancer and diabetes causes 57% of all deaths globally. Chronic conditions can result in a variety of adverse health effects, such as depression and disability: can have an impact on wellbeing: and can also be costly. Vitamin D deficiency has been shown to be associated with common chronic diseases such as bone metabolic disorders, cardiovascular disease, cancer and diabetes. Thus, the role and effect of vitamin D should be further explored. Studying risk factors based on vitamin D intake and metabolism may lead to novel interventions and possible early treatments. The objective of this Special Issue "Role of Vitamin D In Chronic Diseases" is to publish reviews, clinical trials or experimental studies that focus on the role of vitamin D in chronic diseases. Your expert contributions to this Special Issue of Nutrients, with its newly released Impact Factor of 6.706, are highly appreciated.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluis Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain

 Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
