Carbohydrate-Restricted Diets and Human Disease

Message from the Guest Editors

For decades, carbohydrates have been very controversial in the context of diabetes mellitus and its development, as well as in the context of diabetes control. Diet trends come and go, and very often we are left confused about what should be recommended, and what kind of diet should be followed. Therefore, findings from studies have very important implications. They help us to understand how much energy intake should be obtained from carbohydrates and other nutrients to prevent and to control diabetes mellitus, but they also provide evidence of the efficacy and safety of low or very low carbohydrate diets. This Special Issue aims to focus on new evidence or reviews of current literature about the effects and health outcomes of carbohydrate-restricted diets in diabetes mellitus development and control.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)
