

Special Issue

Diet, Inflammation, and Infectious Diseases

Message from the Guest Editor

Inflammation is an important function of the innate immune response against infectious diseases. However, unresolved inflammation is associated with adverse outcomes during and after the infection. In this Special Issue, we focus on the potential of diet to modulate inflammation and infectious disease outcomes. The interaction of diet with gut integrity, microbiota, and metabolism to affect inflammation is also of interest. Additionally, we welcome studies on the topics at the nexus of infectious and chronic diseases. Submissions can include original articles on clinical, epidemiological, and preclinical studies along with review articles.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
