Feature Papers in Osteology

Message from the Guest Editor

As Editor-in-Chief of *Osteology*, I am pleased to announce this Special Issue, entitled "Feature Papers in *Osteology* in 2020". Articles from Editorial Board Members and leading researchers will be collected to explore cutting-edge developments in the science of osteology. Potential topics include but are not limited to the following items:

- Bone-related diseases, including arthritis, fractures, infections, osteoporosis, tumors;
- Molecular mechanisms research on bone and bone-related diseases;
- Interactions of bone with other organ systems, including cartilage, muscle, and neural;
- Biological and physiological research on bone, cartilage, joints, and spine;
- Methodological advances in osteology;
- Bone biomaterials.

This Special Issue offers a timely and authoritative opportunity to present recent progress in the field of osteology. It is expected to highlight exciting challenges and future research in the field of bone science.
