Medicinal Chemistry of Indole and Quinoline Derivatives: Trends, and Future Directions as Therapeutic Drugs

Message from the Guest Editor

The journal *Pharmaceuticals* invites both reviews and original articles which concern the use of indoles and quinolines in the discovery and development of pharmaceuticals. The scope of the Special Issue will cover, but is not limited to: new synthetic methods in the synthesis of indoles and quinolines, medicinal chemistry and structure–activity studies of indole and quinoline derivatives, natural product discovery involving indoles and quinolines, indole and quinoline drug repositioning, new combinations of indoles and quinolines, and indoles and quinolines beyond pharmaceutical applications. The collection of manuscripts will be published as a Special Issue of the journal.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief
