Hybrid Materials and Their Applications in the Pharmaceutical or Medical Field

Message from the Guest Editor

The pharmaceutical and medical fields need new methods and solutions for approaching the rising number of health problems. All these illnesses need to be addressed and kept under control or cured, with improved drugs and novel techniques. In this idea, some solutions include the development of new drugs, updated and targeted delivery systems, or enhanced therapeutic methods. Hybrid materials are considered as a viable solution for the necessity of continuous progress in this area of research. Hybrid materials have gained a lot of attention lately due to the many advantages they can offer. We invite you to contribute to this Special Issue with your work (research or review) regarding the use of hybrid materials in the pharmaceutical or medical field. We encourage the submission of topics about hybrid materials starting from their synthesis, characterisation and various applications (drug delivery, improved drug properties and action, new system therapies, etc.).

- hybrid materials
- organic–inorganic
- pharmaceutical applications
- medical applications

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
