

Special Issue

Drug Delivery Systems for Ocular Diseases

Message from the Guest Editors

We are pleased to invite you to contribute to our Special Issue on drug delivery systems for ocular diseases. It is known that topical instillation for the treatment of ocular diseases has important deficiencies, mainly due to the permeability barrier of the ocular surface. To improve the drug efficacy with low concentrations, new drug release systems have been developed in recent years. These systems allow for an increase in the release time and in drug penetration, enhancing the drug efficacy and tolerance. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: drug delivery systems, contact lens delivery, nanoparticles, liposomes, microneedles, and nanocarriers. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
