Recent Advances in Biogenic-Based Nanostructures for Pharmaceutical Applications

Message from the Guest Editors

Currently, nanotechnology is present in various sectors of society, taking part directly or indirectly in the care of human and animal life. For this reason, we are going to bring together research that is highly significant for our topic, evaluating recent and relevant aspects in the field of nanobiotechnology that are dedicated to studying how nanoparticles synthesized by biogenic routes interact with the various biological systems to which they can be applied. In this Special Issue of *Pharmaceutics*, we invite researchers from various scientific fields to contribute their original research articles and high-quality reviews on recent advances in the use of biogenic nanoparticles in applications in various biological organisms (antimicrobial, antioxidant, anticancer, antileishmanial, antiparasitic, larvicidal, environmental remediation, etc). We hope that our proposal will contribute to the discovery of new drug candidate molecules for therapeutic research, as well as proposing, at a comprehensive level, probable biological targets for their action and furthering the current literature on how these actions occur.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
