

## Special Issue

# Biomaterials and Delivery Systems for Regenerative Medicine

### Message from the Guest Editors

Dear colleagues, Biomaterials used in regenerative medicine should be biocompatible. They should mimic the natural structure of the extracellular matrix and represent a physiological microenvironment for cellular functions. They should induce tissue regeneration and have adequate biodegradability properties, as well as the ability to deliver bioactive substances if they are used as carriers and delivery systems. Prior to potential clinical applications, biomaterials have to be thoroughly tested in preclinical studies using various in vitro cell models and in vivo animal models. This Special Issue welcomes original research or review articles that bring newly developed biomaterials, delivery systems, and models for regenerative medicine and pharmaceutical purposes. Topics include, but are not limited to: biomaterial design and testing, biocompatibility testing in vitro/in vivo, 2D and 3D cell cultures, in vitro cell models for testing drugs for regenerative medicine applications, personalized in vitro cell models, biomaterials as delivery systems, 3D printing, wound healing, and pharmaceuticals in regenerative medicine.

### Guest Editors

Dr. Sanja Stojanović

1. Department of Biology and Human Genetics, Faculty of Medicine, University of Niš, 18000 Niš, Serbia
2. Department for Cell and Tissue Engineering, Scientific Research Center for Biomedicine, Faculty of Medicine, University of Niš, 18000 Niš, Serbia

Prof. Dr. Stevo Najman

1. Department of Biology and Human Genetics, Faculty of Medicine, University of Niš, 18000 Niš, Serbia
2. Department for Cell and Tissue Engineering, Scientific Research Center for Biomedicine, Faculty of Medicine, University of Niš, 18000 Niš, Serbia

### Deadline for manuscript submissions

31 March 2025

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
