

## Special Issue

# The Study of Plant Compounds in Antioxidant Activity and Anticancer Activity

### Message from the Guest Editors

The study of plant compounds with therapeutic properties dates back to ancient times. However, every research group that studies the extraction, purification, identification, and quantification of these compounds, with each study conducted, discovers new facts, which through existing analysis techniques, always confirm the antioxidant and anticancer properties of these valuable compounds. We are pleased to invite you to contribute with valuable research in the field of plant extracts and the determination of their biologically active properties, as well as efficient delivery systems of natural compounds. This Special Issue aims to highlight recent advances in biologically active properties of plant compounds and their delivery systems suitable for efficient therapeutic effects. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following: plant compounds extraction, purifications, identifications and quantifications, also in delivery systems that are able to transport the active compounds in the human body with antioxidant and anticancer properties preservation.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
