# Emerging Strategies in Drug Development and Clinical Care in the Era of Personalized and Precision Medicine

### Message from the Guest Editors

Modern medicine is going through an extremely important moment in its evolution in relation to the disease–drug–patient axis, gradually progressing from pure drug development, which initiates from the need to prevent or treat certain diseases, to the expansion of coherent therapeutic strategies which are personalized for each individual, in recognition of the fact that each patient is a distinct physio-pathological case.

Remarkable advances in recent decades in the prevention strategies, diagnostic procedures and available treatments have paved the way to major improvements in patient care. Personalized medicine is approachable if comprehensive details are known about the pathogenesis; the therapeutic agents developed for the management of the pathology in question; the biochemical mechanisms of action of the drugs; the interactions of the drugs with each other and with other endogenous or exogenous factors; and the genetic and epigenetic background of the patient, their chronobiological, nutritional and socio-demographic characteristics. Dr. Cristina Manuela Drăgoi

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
