

## Special Issue

# Advanced Characterization of Inhalation Medicinal Products

### Message from the Guest Editors

Pulmonary drug delivery has been demonstrated not only to be a valuable approach to treat local diseases but has shown great potential for drug delivery systemically. This has presented the possibility to develop new products for the delivery of small molecules for the treatment of clinically relevant diseases such as diabetes. However, the look for new therapeutic approaches has led to lead compounds that in comparison to those in the clinical use present some challenges such as lower aqueous solubility, poor permeability and high dosages. On the other side, more complex formulations are proposed, in view of providing a controlled release of drugs after lung deposition. In this scenario, the classic pharmacopoeial tests do not appear to be appropriate to investigate and characterize such new products. This Special Issue aims to showcase a series of advanced approaches for the characterization of innovative products for pulmonary delivery, with special emphasis on aerosol performance, physico-chemical characterisation, dissolution studies, particle engineering, etc.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
