

## Special Issue

# In Vitro Cell Models in Regenerative Medicine

### Message from the Guest Editors

Due to the constant requirement for the reduction in animal use in research, the need for development of adequate alternative testing systems is rapidly arising. The most challenging step in the creation of an ideal in vitro system is mimicking the tissue environment in an appropriate way. Three-dimensional cell models are slowly overcoming traditional two-dimensional cultures, while organ-on-chip systems are introducing a real revolution in in vitro testing. This Special Issue encourages authors to submit their original research or review articles that bring new methods, solutions, and models for regenerative medicine and pharmaceutical purposes. Topics include but are not limited to biocompatibility testing in vitro, stem cells, 2D and 3D cell cultures, in vitro cell models for soft and hard tissue regeneration, in vitro cell models for testing drugs and medical devices for application in regenerative medicine, personalized in vitro cell models, matrices and scaffolds for 3D cell models, biomaterials, 3D printing, bioreactors, and pharmaceuticals in regenerative medicine.

### Guest Editors

Dr. Sanja Stojanović

1. Department of Biology and Human Genetics, Faculty of Medicine, University of Niš, Niš, Serbia
2. Department for Cell and Tissue Engineering, Scientific Research Center for Biomedicine, Faculty of Medicine, University of Niš, Niš, Serbia

Prof. Dr. Stevo Najman

1. Department of Biology and Human Genetics, Faculty of Medicine, University of Niš, 18000 Niš, Serbia
2. Department for Cell and Tissue Engineering, Scientific Research Center for Biomedicine, Faculty of Medicine, University of Niš, 18000 Niš, Serbia

### Deadline for manuscript submissions

closed (30 June 2023)

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
