

## Special Issue

# Dendrimers for Drug Delivery

### Message from the Guest Editor

Within this Research Topic, we welcome contributions devoted to hot topics in rationally designed therapeutic formulations, including but not limited to the design of dendrimer-based supramolecular assemblies for drug delivery; physicochemical properties and fine structure of dendrimer constructions; optimizing nanoformulations to increase drug efficiency; stimuli-sensitive drug release; and tissue- and organ-specific delivery. We encourage the submission of groundbreaking concepts in the form of communications and high-level original research in the form of full papers. We also welcome comprehensive reviews and minireviews summarizing recent advances in the development of robust dendrimer-based approaches and technologies for drug delivery.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
