

Special Issue

Drug Delivery and Penetration through Skin and Its Formulations

Message from the Guest Editors

Drugs exert their effects at the site of action, and depending on the pathology, it might be convenient to reach either different skin layers or a specific one. Formulations have an important role in modulating the diffusion of the drugs through the skin. Thus, it is important to fully characterize these formulations and to study the permeation of the drug through the skin and the drug's biodistribution within the skin. The distribution of the drug can be associated with its efficacy; thus, these studies are essential for the development and optimization of drug products to improve the therapeutic index. Authors are invited to contribute to this Special Issue entitled "Drug delivery and penetration through skin and its formulations". We encourage you to submit your eminent research as reviews, research papers and communications.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2024).
