Precision Medicine: Applied Concepts of Pharmacogenomics in Patients with Various Diseases and Polypharmacy

Message from the Guest Editors

We act as guest editors for a special edition of the journal *Pharmaceutics* entitled "Precision Medicine: Applied Concepts of Pharmacogenomics in Patients with Various Diseases and Polypharmacy". It is our intention to provide the reader with at least 10 examples of practical application of pharmacogenomics to improve patients' clinical outcome. We therefore want to pay particular attention to not only providing information on a particular drug-gene pair and also include a special section presenting a discussion on how this information is useful for establishing a therapeutic regimen in a clinical setting where the patient is receiving several drugs. The submitted articles should include original research results. The deadline for submission of an article is December 31, 2018. We hope you will accept this invitation. Best Regards,

Guest Editors

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
