## Preclinical Pharmacokinetics and Bioanalysis

### Message from the Guest Editors

Today, the development of new drugs is still time consuming, extremely costly, and suffers from high attrition rates. One of the biggest bottlenecks in the early phase of drug development is the lack of high-throughput approaches for preclinical pharmacokinetics (PK) screening. Nevertheless, this area has been greatly improved over the past decade because of the revolutionary changes in bioanalytical methods, in particular, with the development of LC-MS/MS platform. New preclinical PK screening approaches, including cassette dosing PK, cassette analysis, snapshot PK and rapid PK have been proposed and tested. The progress of these PK technologies could significantly accelerate the process of drug discovery. They can also be widely applied in different stages of drug development to eliminate weak candidates. This Special Issue on "Preclinical Pharmacokinetics and Bioanalysis" aims to highlight the latest development technologies and to inspire future research in this exciting area.

### Guest Editors

Dr. Lingzhi Wang

Dr. Xiaoqiang Xiang

Prof. Dr. Paul Chi Lui Ho

### Deadline for manuscript submissions

closed (16 October 2018)

# About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

**High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:**

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

**Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
