

## Special Issue

# Technology-Enhanced Learning: The Pharmacy Perspective

### Message from the Guest Editor

Over the last decade the use of technology-enhanced learning has become ubiquitous in most university courses and in work-based learning. There are now online resources that support students on campus, to supplement and complement lectures, coursework and laboratory sessions, there are also online courses ranging from a few minutes to fully accredited MSc programmes that are available for pharmacists in the workplace. Materials are developed by higher or further education institutions, professional bodies and workplace training departments. The impact of elearning in pharmacy is huge and this Special Issue hopes to capture this.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.
