

# Special Issue

## Microwave Photonic Techniques

### Message from the Guest Editors

Microwave photonics is an interdisciplinary area that studies optoelectronic devices and systems processing signals at microwave rates. Due to the advantage of the broadband, high frequency, and low loss offered by photonics, microwave photonics has attracted great interest and has been intensively researched for the last few decades, and numerous solutions have been proposed and demonstrated. This Special Issue, "Microwave Photonics", will focus on the recent advances in microwave photonics, covering all aspects of research and development. Both original research papers and review articles providing state-of-the-art developments, technological breakthroughs, experimental verifications, and practical applications are welcome. Topics include, but are not limited to, the following:

- Optoelectronic devices;
- Microwave photonic signal generation and processing;
- Microwave photonic for sensing applications
- Integrated microwave photonics
- Microwave photonic components and systems
- Radio over fiber
- RF photonic links
- Microwave photonics AI processing
- Photonics terahertz technology

---

### Guest Editors

Dr. Jianghai Wo

Microwave Photonics and Optical Communications Laboratory, Jinan University, Guangzhou 510632, China

Dr. Yuan Cao

Guangdong Provincial Key Laboratory of Optical Fiber Sensing and Communications, Institute of Photonics Technology, Jinan University, Guangzhou 510632, China

---

### Deadline for manuscript submissions

closed (29 February 2024)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Nelson Tansu  
School of Electrical and Electronic Engineering (EEE), The University of  
Adelaide, Adelaide, SA 5005, Australia

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec,  
CAPlus / SciFinder, and other databases.

##### Journal Rank:

JCR - Q2 (Optics)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 14.8 days after  
submission; acceptance to publication is undertaken in 2.6  
days (median values for papers published in this journal in  
the first half of 2024).
