Message from the Editor-in-Chief

Physics plays a crucial role in our understanding of the world and is of huge significance for the development of other sciences. This ensures that physics is always attracting heightened attention and is at the center of human interest. *Physics* is devoted to all aspects of physics and looks into news and progress of modern physics, seeking new horizons and future discoveries. The journal aims to provide an advanced forum for discussion of contemporary problems in physics and its development.

Editor-in-Chief

Prof. Dr. Edward Sarkisyan-Grinbaum

Aims

Physics is an international, peer-reviewed, open access journal which presents the latest research on all aspects of physics ranging from fundamental studies to emerging technologies. It publishes reviews, regular research papers, and short communications as well as Special Issues on particular subjects.

Our aim is to encourage scientists to publish their experimental and theoretical studies in as much detail as possible. Therefore, the journal has no restriction on the maximum length of the papers. Full experimental details should be provided so that results can be reproduced.
