# Polymers in Medicine and Cosmetics: Advancing Materials for Health and Beauty

### Message from the Guest Editors

This Special Issue entitled "Polymers in Medicine and Cosmetics: Advancing Materials for Health and Beauty" aims to explore the innovative applications of polymeric materials in the fields of medicine and cosmetics. As the demand for advanced therapeutic solutions and skin and hair care products continues to grow, polymers and biopolymers have emerged as versatile materials that can enhance functionality, effectiveness, safety and user experience. This Special Issue will encompass a wide range of topics, including the synthesis and characterization of novel polymeric systems, their role in drug delivery, tissue engineering, and regenerative medicine, as well as their applications in pharmaceutical and cosmetic formulations.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.
