# Special Issue

# 3D Printing of Polymer Composites, 2nd Edition

## Message from the Guest Editors

The 3D printing of polymer composite materials has attracted special attention due to its promise in improving, modifying, and diversifying the properties of generic materials by introducing reinforcements. Although it is still at an early stage, composite 3D printing is gaining traction within the manufacturing industry. It provides a guick and automated approach to manufacturing composite parts, which used to be laborintensive and required highly skilled operators. The toolfree fabrication technique for composites not only makes the process of fabricating composite parts much faster and less costly, but also opens the possibility of multifunctional composite structures for new applications. The aim of this Special Issue is to explore the latest achievements in computational design and fabrication, process optimization, intelligent measurement and control, machine learning-based 3D printing, polymer composite design, multifunctional smart polymers, and their fascinating applications.

### **Guest Editors**

Dr. Hao Wang

Engineering Product Development, Singapore University of Technology and Design, Singapore, Singapore

Dr. Fengfeng Li

Center for Composite Materials and Structures, Harbin Institute of Technology, Harbin 150080, China

#### Deadline for manuscript submissions

31 May 2025

# **About the Journal**

# Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

#### Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

#### **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

## **Journal Rank:**

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry )
