

Special Issue

Polysaccharides: From Synthesis to Applications

Message from the Guest Editors

Polysaccharides represent an essential and diverse class of biomolecules. From the complex processes involved in their synthesis to the diverse ways in which they are utilized in different sectors, there is a wealth of knowledge and innovation to be shared. This Special Issue encourages submissions that cover all aspects related to the synthesis of polysaccharides. The scope of contributions includes, but is not limited to, the following: Novel synthetic approaches and technological explorations regarding polysaccharides; Structural analysis and characteristic studies on polysaccharides from different sources; Mechanisms and regulations in the synthesis process of polysaccharides; Applications of polysaccharides in the biomedical field, such as drug delivery or tissue engineering; Applications and innovations in polysaccharides in the food industry; The potential of polysaccharides in environmental protection and sustainable development; Emerging applications and prospects for polysaccharides in other fields. Early bird discount can be enjoyed for manuscripts submitted before 31 December 2024. For details, please contact shelly.gu@mdpi.com.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of
Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
