

## Special Issue

# Novel Wastewater Treatment Applications Using Polymeric Materials

### Message from the Guest Editors

The applications of novel standalone polymeric-based technology are critical to successfully eliminate a variety of organic and inorganic impurities concurrently from water and wastewater. The main topic that we will focus on in the present Special Issue (SI) is suggesting some practical, sustainable and eco-friendly solutions based on novel polymeric materials, highlighting their applications in water and wastewater treatment. Assessment of the chemical, physical and morphological characteristics of polymers and their optimization by using different research tools is an important research aim about which we encourage submissions for inclusion in this SI, supported by the feasibility and efficiency of the suggested solutions.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of  
Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
