

Special Issue

Bioactive Polymer Composites and Their Clinical Applications

Message from the Guest Editors

It gives us great pleasure to announce and invite submissions for this Special Issue of *Polymers* on “Bioactive Polymer Composites and their Clinical Applications”. Polymers entail a wide-ranging clinical application and are of particular interest in healthcare. Recently, new methods to synthesize bioactive polymer composites and their potential to regenerate various tissues have been explored. These polymers have gained popularity due to their low production costs and undemanding processing methods. Even with these splendid developments, there is a need for additional investigation to pursue improved bioactive polymer composites for medicine and dentistry-related clinical applications. Therefore, publishing developments related to these bioactive polymer composites would be advantageous for researchers, academicians, and physicians. This Special Issue aims to highlight the progress and fundamental aspects of the synthesis, characterization, properties, and clinical applications of bioactive polymer composites. We look forward to the submission of your manuscripts related to this Special Issue.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of
Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
