

Special Issue

Advanced Biopolymers from Natural Resources

Message from the Guest Editor

Dear colleagues, Nowadays, researchers are actively searching for novel biopolymers from various natural products (such as Chinese herbal medicines and marine organisms) and exploring their specific biological activities, such as immune regulation, anti-cancer, etc. Therefore, exploring the biopolymers of natural products is an important topic. This Special Issue will focus on the following focal points: resources and its classification of biopolymers; biosynthetic pathways of biopolymers; extraction, isolation, and purification methods for biopolymers; physicochemical characteristics and structure identification of biopolymers, and so on. We welcome contributions to this Special Issue.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of
Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
