

Special Issue

Environmental Catalysis Processes Based on Biomass

Message from the Guest Editors

The focus of this Special Issue is the use of catalysts to valorize biomass. The choice of the biomass source is a key factor to obtain a sustainable process, since lignocellulosic biomass should not interfere with the food chain. In this sense, lignocellulose has emerged as a sustainable source due to its abundance and low cost to obtain fuels and chemicals. More recently, the organic waste related to the harvest, manufacture, and disposal of food has also emerged as a sustainable biomass source to obtain high value-added products.

Guest Editors

Dr. Juan Antonio Cecilia

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
