

Special Issue

Advances in Bioprocess Technology

Message from the Guest Editors

The Special Issue, “Advances in Bioprocess Technology”, will address the latest research in environmentally friendly bioprocess technology. Bioprocess technologies include bioenergy from lignocellulose materials, biomass gasification, biofuels/bioprocesses production from agro-food waste, enzymatic bioprocess technology, food fermentation, bioprocesses optimization scale-up, and modeling. Bioprocess technology is a vital part of biotechnology that deals with processes combining all living matter or its components with nutrients to produce specialty chemicals, reagents, and biotherapeutics. These processes form the backbone of translating discoveries of life sciences into useful industrial products. Different stages associated with bioprocess technology include substrates and media preparation, biocatalyst selection and optimization, volume production, downstream processing, purification, and final processing. The objective of this Special Issue is to showcase the diversity and advances in research that contributes to developing effective bioprocess technologies.

Guest Editors

Dr. Francesca Raganati

Dipartimento di Ingegneria Chimica, dei Materiali e della Produzione Industriale, Università degli Studi di Napoli Federico II, Piazzale Tecchio 80, 80125 Napoli, Italy

Dr. Alessandra Procentese

Industrial Engineering Department, University of Salerno, Salerno, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
