

Special Issue

Sustainable Development Processes for Renewable Energy Technology

Message from the Guest Editors

Currently, the production of energy from traditional fossil sources is beginning to give way to renewable energy technologies. New technological, economic, and environmental requirements raise the question of how to make renewable energy sources a driver of sustainable development for the coming decades. Solar and wind energy, recycling of synthetic materials, and new ways for their utilization can not only significantly reduce the burden on the environment, but also give a new impetus to the development of modern industry and help find a new balance between the needs of people and the capabilities of nature. We invite you to submit your original papers to the Special Issue “Sustainable Development Processes for Renewable Energy Technology” and look forward to receiving your outstanding research. Keywords

- sustainable development
- renewable energy
- new materials
- recycling

Guest Editors

Prof. Dr. Sergey Zhironkin

School of Core Engineering Education, National Research Tomsk Polytechnic University, 30 Lenina St., 634050 Tomsk, Russia

Dr. Radim Rybar

Faculty of Mining, Ecology, Process Control, and Geotechnologies, Technical University of Kosice, 04001 Kosice, Slovakia

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
