

Special Issue

Study of Microbiological Safety in the Food Chain

Message from the Guest Editor

For the special issue "Study of Microbiological Safety in the Food Chain", potential topics include but are not limited to the following:

- Food safety assurance systems;
- Epidemiology of foodborne pathogens;
- Microbiological risk assessment in food safety;
- On-farm food safety;
- Emerging pathogens in food chain;
- Food processing hygiene and microbiological food safety;
- Effect of food processing methods on foodborne pathogens;
- Reduction of hazardous microbial metabolites in food;
- Thermal and non-thermal inactivation of microbes in food;
- Challenge tests;
- Bio-preservation and hurdle technology;
- Beneficial microbes in food;
- Antimicrobial capacity of natural compounds in food;
- Traditional and industrial food production: microbiological risk.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
