

Special Issue

Modeling, Optimization and Computational Methods for Complex Chemical Systems

Message from the Guest Editors

This Special Issue on “Modelling, Optimisation and Computational Methods for Complex Chemical Systems” aims to present latest novel advances in the development and application of advanced mathematical modelling methodologies, optimisation algorithms and computational methods for complex chemical systems and to stimulate further research in this important area.

Topics include but are not limited to:

- New methodologies for multiscale modelling, data-driven modelling and hybrid mechanism/data-driven modelling;
- Advanced optimisation theory, methods, algorithms and tools;
- Process-product synthesis, design, integration and intensification using state-of-the-art modelling and optimisation methods;
- Process control and operations using cutting-edge modelling techniques and optimisation algorithms;
- Industrially relevant applications of state-of-the-art models and computational methods.

Guest Editors

Prof. Dr. Jie Li

Centre for Process Integration, Department of Chemical Engineering & Analytical Science, The University of Manchester, Manchester M13 9PL, UK

Dr. Vassilis M. Charitopoulos

Centre for Process Systems Engineering, Department of Chemical Engineering, University College London, Bloomsbury, London WC1E 6BT, UK

Deadline for manuscript submissions

closed (15 October 2021)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
