

Special Issue

Aerosol Formation Processes, Measurement Techniques and Related Applications

Message from the Guest Editors

This Special Issue, “Aerosol Formation Processes, Measurement Techniques and Related Applications”, aims to publish topics concerning atmospheric aerosols science. This Special Issue will discuss the chemical and physical mechanisms of aerosols’ formation processes. We also encourage the submission of applied research related to atmospheric aerosol measurement techniques in situ and in laboratories. The main subject areas include, but are not limited to:

- Types of aerosols and their formation processes;
- Aerosols and photochemical processes;
- Aerosol–cloud interactions: cloud formation processes and radiative forcing;
- Aerosol measurement techniques: fundamentals, applications and analysis;
- Remote sensing of aerosols: orbital sensors and retrieval of properties;
- Observational experiments and numerical modeling of aerosols;
- Aerosols’ components and their effects: on health, ecosystem functioning, and climate.

Guest Editors

Dr. Galuber Cirino

Faculty of Meteorology, Geosciences Institute, Federal University of Pará, Belem 66075-110, PA, Brazil

Dr. Cléo Q. Dias-Junior

Department of Physics, Federal Institute of Pará (IFPA), Av. Almirante Barroso, Belém 66093-020, PA, Brazil

Deadline for manuscript submissions

30 November 2024

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
