

Special Issue

Modeling and Simulation of Welding Processes

Message from the Guest Editors

For this Special Issue "Modeling and Simulation of Welding Processes", papers on advanced welding for laser welding, friction stir welding, electron beam welding, arc welding, and hybrid welding are welcome. Publishing research on the effects of advanced welding on the material for microstructure and performance; development of process parameters for new advanced materials (high entropy alloys, light metal alloys, and dissimilar metals); modeling and simulation of welds process/material interaction, thermal effects, stresses, and distortion; and destructive and non-destructive control. Papers that combine both experimental and theoretical approaches are especially welcomed. Contributions from around the world will contribute to the success of this Special Issue, which aims at spreading the potential of advanced welding at joining well-established and innovative metallic parts.

Guest Editors

Dr. Chunming Lin

Dr. Huei-Sen Wang

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
