

Special Issue

Recent Advances in Biosorption Technology

Message from the Guest Editor

Biosorption is an attractive and viable technology for removing toxic inorganic and organic pollutants or for recovering valuable resources from aqueous wastewaters and represents one of the main components of environmental and bioresource technology. This Special Issue on “Recent Advances in Biosorption Technology” invites the submission of original research papers, review papers, and short communications discussing recent trends, new developments, and applications in biosorption of toxic heavy metal ions, metalloids, radionuclides, and organic compounds such as dyes, pesticides, herbicides, insecticides, organochlorines, polychlorinated biphenyls (PCBs), pharmaceuticals, and personal care products, among others. Contributions related to the recovery of substances from aqueous solution (e.g., precious metals, microelements, proteins, antibodies, peptides) are also very welcome. Likewise, we are keen to receive contributions that discuss the promotion, marketing, distribution, use, regeneration, and sustainable management of biosorbents.

Guest Editor

Prof. Dr. Eliseo Cristiani-Urbina

Departamento de Ingeniería Bioquímica, Escuela Nacional de Ciencias Biológicas, Instituto Politécnico Nacional, Av. Wilfrido Massieu s/n, Unidad Profesional Adolfo López Mateos, Ciudad de México 07738, Mexico

Deadline for manuscript submissions

closed (10 December 2022)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
