

Special Issue

Manufacturing Industry 4.0: Trends and Perspectives

Message from the Guest Editors

Today, the massive use of digital and information technologies such as cyberphysical systems, the Internet of Things (IoT), machine to machine (M2M) communication, big data, and cloud computing represent what it is called the fourth industrial revolution. The names are different all over the world: “Industry 4.0”, “Internet Factory”, “Smart Plant”, “Digital Factory”, “Integrated Industry”, “Innovative Factory”, “Intelligent Manufacturing”, “e-Factory”, or “Advanced Manufacturing”, but the concepts are the same. Modern information and communication technologies seem a solution to increase productivity, quality, and flexibility within the industry. This Special Issue on “Industry 4.0 : Trends and Perspectives” intends to present some methodologies, tools, and applications for Industry 4.0. Topics include but are not limited to:

- Smart manufacturing;
- Cyberphysical systems;
- Digital twins;
- Cybersecurity and safety;
- Virtual commissioning;
- IIoT;
- Smart robotics;
- Maintenance 4.0;
- Education 4.0.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
