Value-Added Utilization Processes of Industrial Wastes

Message from the Guest Editor

This Special Issue on “Value-Added Utilization Processes of Industrial Wastes” aims to cover advanced and innovative processing technologies for industrial wastes valorization. Topics include, but are not limited to:

- Innovative processes for wastes valorization
- Insights into developing potential processes for valorization of different wastes via chemical, thermal, biological, and electrochemical processes in order to obtain value-added products
- Case studies of application of various waste valorization processes, focusing on the integration into current waste management systems

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
