

Special Issue

Women's Special Issue Series: Sustainable Resource Management

Message from the Guest Editors

This Special Issue celebrates the role of women in sustainable resources management. To ensure the transition towards a sustainable future, we believe that all perspectives must be included. Far too often, it is only men who make decisions in terms of resources exploitation, economic development and technology innovation. However, sustainability, equity and climate change mitigation are too important to only be decided upon by a narrow section of society. Diversity brings innovation and creativity, which are greatly needed in the sustainability transition. Women make a strong contribution to sustainable resources management, both from the home front as well as at work, as engineers, researchers and policy makers. This Special Issue champions women in science and celebrates their achievements. For this Special Issue, we welcome all research led by female scientists (first author or supervising author), where male scientists may offer support for the initiative as co-authors or supervisors. We welcome submissions from all authors, irrespective of gender.

Guest Editors

Prof. Dr. Eva Pongrácz

Dr. Cara Beal

Prof. Dr. Kazuyo Matsubae

Dr. Jenni Ylä-Mella

Dr. Sherien Elagroudy

About the Journal

Message from the Editor-in-Chief

Responsible prosperity is underpinned by sustained access to resources. *Resources*, publishes excellent science and scholarship which transforms understanding, practices and policies for conserving all natural resources—from water, land and air; to plant and animal biodiversity; to minerals and energy and their interconnection across scales. Significantly, we invite high quality submissions from natural and social sciences.

Build impact from your research by submitting to *Resources*, an open-access journal connecting you with data, insights, ideas and evidence needed to shape a better world.

Editor-in-Chief

Prof. Dr. Benjamin McLellan
Graduate School of Energy Science, Kyoto University, Yoshida-honmachi, Sakyo-ku, Kyoto 606-8501, Japan

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1
(Nature and Landscape Conservation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 33.4 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2024).
