

Special Issue

Climate Risks: Business Scenarios and Financial Implications

Message from the Guest Editors

This Special Issue is devoted to the dissemination of research on the modeling and management of climate risks in business. The most influential reporting standards at the global level, namely the IFRS Sustainability Disclosure Standards and the European Sustainability Reporting Standards, have included climate-related risks as a prominent topic of corporate sustainability disclosure. First, companies should identify whether they are subject to climate-related physical risks or transition risks. Second, companies should describe the resilience of their strategy and business models in relation to climate change. Finally, companies should evaluate and disclose the anticipated financial effects from material physical and transition risks, specifically for future cash flows, expenses and liabilities, and assets at risk. The Special Issue will include high-quality, original research papers discussing theoretical modeling and applied solutions for tackling climate-related risks, with a focus on economic and business impacts.

Guest Editors

Prof. Dr. Voicu-Dan Dragomir

Dr. Irena Jindřichovská

Prof. Dr. Madalina Dumitru

Deadline for manuscript submissions

31 December 2024

About the Journal

Message from the Editor-in-Chief

Risks is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Steven Haberman

Faculty of Actuarial Science and Insurance, Bayes Business School,
City University of London, 106 Bunhill Row, London EC1Y 8TZ, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility:

indexed within Scopus, ESCI (Web of Science), EconLit, EconBiz, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Business, Finance) / CiteScore - Q1 (Economics, Econometrics and Finance (miscellaneous))
