Special Issue

Risk, Ruin and Survival: Decision Making in Insurance and Finance

Message from the Guest Editors

Techniques of measuring risk and calculating probabilities of ruin or survival have been exciting topics for mathematically-inclined academics. For practicing actuaries and financial engineers, these topics have brought opportunities, but also headaches. With this Special Issue, we cordially invite researchers to share their results that, in one way or another, contribute to the betterment of practice and/or theory of decision making under uncertainty. Keywords

- risk measures
- ruin theory
- survival analysis
- financial engineering and management
- decision making under uncertainty
- portfolio construction
- dependence modeling
- statistical methods and inference

About the Journal

Message from the Editor-in-Chief

Risks is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Steven Haberman
Faculty of Actuarial Science and Insurance, Bayes Business School, City University of London, 106 Bunhill Row, London EC1Y 8TZ, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility:

indexed within Scopus, ESCI (Web of Science), EconLit, EconBiz, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Business, Finance) / CiteScore - Q1 (Economics, Econometrics and Finance (miscellaneous))
