

Special Issue

Feature Papers 2020 Editors' Collection

Message from the Guest Editor

As Editor-in-Chief of *Sci*, I am pleased to announce our first Special Issue of the annual series of Feature Papers Editors Collection. This Special Issue publishes original articles and reviews on topics considered by our editors as being actual and highly significant in 2020. Each editor, as an authority in her or his field of research, is therefore invited and encouraged to contribute such keynote publication(s) in her or his respective field. These "Feature Papers" will be collected as the annual overview of activities in the areas relevant to *Sci*, and will be published in book format after the Special Issue has been closed. As always, we welcome high-quality contributions falling within the scope of our journal and its various fields of scientific activity. Submitted manuscripts in these areas will be open to our innovative public postpublication peer review process and will feature prominently on the *Sci* website.

Guest Editor

Prof. Dr. Claus Jacob

Division of Bioorganic Chemistry, School of Pharmacy, Saarland University, D-66123 Saarbruecken, Germany

Deadline for manuscript submissions

closed (20 December 2020)
