

## Special Issue

# Advances in Nanoparticle-Mediated Drug Delivery

### Message from the Guest Editors

Developments in fundamental knowledge and engineering sciences have helped the field of pharmaceuticals. Nanotechnology-based materials are emerging as drug delivery carriers. This Special Issue entitled “Advances in Nanoparticle-Mediated Drug Delivery” from *Scientia Pharmaceutica* calls for cutting-edge research and review manuscripts dealing with insights of current developments of nanoparticles for targeted drug delivery. The issue will be focused on molecular drug targets, including disease-specific proteins, receptors, enzymes, and genes, which seek to elucidate the impact of new therapeutic agents on patient acceptability, preference, satisfaction, and quality of life.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Helmut Viernstein  
Department of Pharmaceutical Technology and Biopharmaceutics,  
Faculty of Life Sciences, University of Vienna, Althanstrasse 14, A-1090  
Vienna, Austria

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), Embase,  
CAPlus / SciFinder, and other databases.

##### Journal Rank:

CiteScore - Q2 (Pharmaceutical Science)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 26.1 days after  
submission; acceptance to publication is undertaken in 5.3  
days (median values for papers published in this journal in  
the second half of 2024).
