Special Issue

Access Control in Internet of Things (IoT)

Message from the Guest Editors

Potential topics for submissions include, but are not limited to, the following:

- Security and privacy modelling in the IoT and edge computing.

- Security and privacy issues in the IoT and edge computing.

- Secure data sharing and management in the IoT and edge computing.

- Privacy-enhanced technology in the IoT and edge computing.

- Privacy technologies and mechanisms in the IoT and edge computing.

- Authentication in the IoT and edge computing.

- Access control in the IoT and edge computing.

- Secure edge storage.

- Vulnerabilities in the IoT and Edge computing.

- Wireless and Mobile Security in the IoT and edge computing.

- Access control policies to prevent cyber threats in the IoT and edge computing.

- Sensor network security in the IoT and edge computing.

- User authentication and authorization in the IoT and edge computing.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
