

## Special Issue

# AI-Enabled Smart Sensing Technologies for Human-Centered Healthcare Applications

### Message from the Guest Editors

Our Special Issue focuses on the strong tie between sensing technologies, human cognitive perceptions and decision-making capabilities to develop innovative healthcare applications.systems in different ways.

Topics: 1.Sensing technologies for smart, pervasive, and connected healthcare 2.IoT for healthcare applications 3.AI-based human-computer interface (HCI) applications 4.Machine-learning-based applications for self-adaptive systems 5.QoS/QoE optimization in human-centered systems 6.Reinforcement learning techniques for human healthcare 7.Self-centered and adaptive healthcare platforms for ambient assisted-living 8.SDN-based IoT healthcare applications 9.Frameworks and architectures of self-driven technologies 10.Efficient resource allocation in human-centered systems 11.Brain Internet of Things 12.Blockchain-enabled self-driven and adaptive applications 13.Adaptive technologies for pervasive and smart systems 14.Security, privacy, and trust in human-centered systems 15.Electrical machines, their applications, optimization, and control 16.User-centered design for subjective wellbeing

---

### Guest Editors

Dr. Ali Hassan Sodhro

Dr. Ismail Butun

Dr. Muhammad Muzammal

Dr. Syed Sabir Hussain Bukhari

---

### Deadline for manuscript submissions

closed (30 April 2024)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

---

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
