

Topical Collection

Biometric Sensing

Message from the Collection Editors

This Special Issue aims to highlight advances in biometric sensing as this relates to biometric recognition. MDPI's *Sensors* solicits paper submissions and aims to bring together researchers and application developers on any of the critical issues involved. This Special Issue will cover a wide range of topics including works on new approaches to biometric sensing, multimodal sensors, biometric sensors' performance assessment, as well as new concepts for vulnerability detection. Keywords:

- biometric sensors
- biometrics modality
- biometric recognition
- face sensing
- vascular sensors
- multispectral biometrics
- anthropometrics
- fingerprint sensing
- liveness sensing
- counter spoofing detection

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
