

Special Issue

Emerging Blockchain Technology Solutions for Real- world Applications (EBTSRA)

Message from the Guest Editors

This Special Issue comprises papers presented at the 2020 IEEE 91st Vehicular Technology Conference (VTC2020-Spring) Workshop on Emerging Blockchain Technology Solutions for Real-World Applications (EBTSRA), held 25–28 May 2020 in Antwerp, Belgium. We seek original unpublished papers focusing on theoretical analysis, emerging applications, novel system architecture construction and design, experimental studies, and social impacts of blockchain. Both review/survey papers and technical papers are encouraged. This Special Issue is also open to other submissions. According to the publishing rules regarding the extended version of conference papers, 1) Title and Abstract should be substantially different with that of conference paper so that they can be differentiated in various databases; 2) 50% new data should be added to make it a real and complete journal paper; 3) The conference proceedings should be mentioned and discussed in the Introduction section; 4) Conference proceedings should be submitted together as supplementary information.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
