

Special Issue

Mobile and Ad Hoc Networks

Message from the Guest Editors

Recently, mobile ad hoc networks have taken notice of the means for autonomous driving and construction of smart and connected communities. VANETs are an essential technology for autonomous driving. By aggregating and analyzing data obtained from mobile devices, smartphones, and wearable sensors, it is possible to realize crowd behavior such as congestion of public spaces in real time. Such techniques can be used for not only behavior estimation but also behavior modification of humans and objects. They can be used for behavior supports of elderly people, disaster mitigation, construction of smart communities, and so on. This Special Issue aims to collect the latest research results related to “Mobile and Wireless Ad Hoc Networks”.

Guest Editors

Prof. Dr. Teruo Higashino

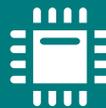

Mobile Computing Laboratory, Graduate School of Information Science and Technology, Osaka University, Osaka 565-0871, Japan

Prof. Dr. Hiroshi Shigeno

Department of Information and Computer Science, Faculty of Science and Technology, Keio University, Hiyoshi, Yokohama 223-8522, Japan

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
